

## **Muzz Episode 1 video diary Transcript**

I have been asked to speak about my first impressions here today. I think it was good; I think it went well. I think that once we all get used to each other, it will be fine.

There are some people who like to say a lot, and some people who watch and listen. It is my first impression that Rob and Shireen say a lot... and maybe Vikki too. Sometimes people say a lot because they know a lot, and they say a lot; but not always. Sometimes people like to fill up space with talk because they are shy and they're not entirely convinced of what they are saying.

Me and Delia: we watch, and we listen. We will say something when we have something to say, and the *need* to say it.
