

Episode Ten – Muzz video diary Transcript

Today went really well; it was very good. It was a lot of hard work, overall, but yeah...it was good. It went better than the rehearsal, because the rehearsal was not so good, and Delia got upset, but it was a good experience because today, Delia...she was okay. And Vikki wasn't giggling so much this time, and Rob also, he wasn't being the clown like he was in rehearsal, so he was good. Shireen also, very good. And for me myself...yeah, I was okay. For me the language wasn't such a problem this time, because if I practise what I have to say and rehearse it, I'm fine. And that, for me, that process worked very well.

I think we will get a good mark for this, because as a group overall, I think we worked hard, and I think we work well together. Rob says I think I will get a good mark, because even *he* thinks I did well today. Rob said this! So I think overall, I will give the group...five out of five. Yes, I agree with that.

Also, in the whole of the group, we have lots of different personalities. Delia is very quiet and shy, like me, but we get on very easily with each other, because our personalities are the same. Rob and Shireen, they are very loud overall, and I think this all helps together with the dynamics of the group, because lots of personalities, combined together, can actually work well. And I think we did, overall. Yes...we should be proud of what we have achieved.
